Bella

Photographs by Adam Cole

Bella loves nothing better than just lazing in the sun – well almost nothing. She gets a fair amount of time for indulging in this hedonistic pastime, being a courier for a travel firm which specialises in Greek tours. 'A lot of people get bored, just lying there doing nothing, but my job is so hectic I relish a few hours of total inactivity. The only problem is that lying in the sun makes me unbelievably horny – I just can't wait to grab the nearest male and get his hot, hard dick inside me. I usually start off by fantasising about a guy coming upon me as I'm sunbathing nude. He licks all the sweat off my back and legs, then works his tongue into the cleft of my bum. Then he rubs his cock all over me, which makes my aching pussy sopping wet . . . that's guaranteed to get my juices flowing copiously, so the natural reaction is I raise my bum and he slides his cock all the way up into my sopping pussy, stretching the engorged lips and filling me completely.'

Drusilla

Photographs by Rupert Daines

We would be failing in our public duty if we did not point out that the fabulous timepiece sported by the delectable Drusilla is none other than the subject of our fabulous offer exclusive to the Paul Raymond Organisation. For a mere £85, you can possess this magnificent Pierre Cardin Lady's Watch, or the equally stunning gent's model. Full details are available on page 3.

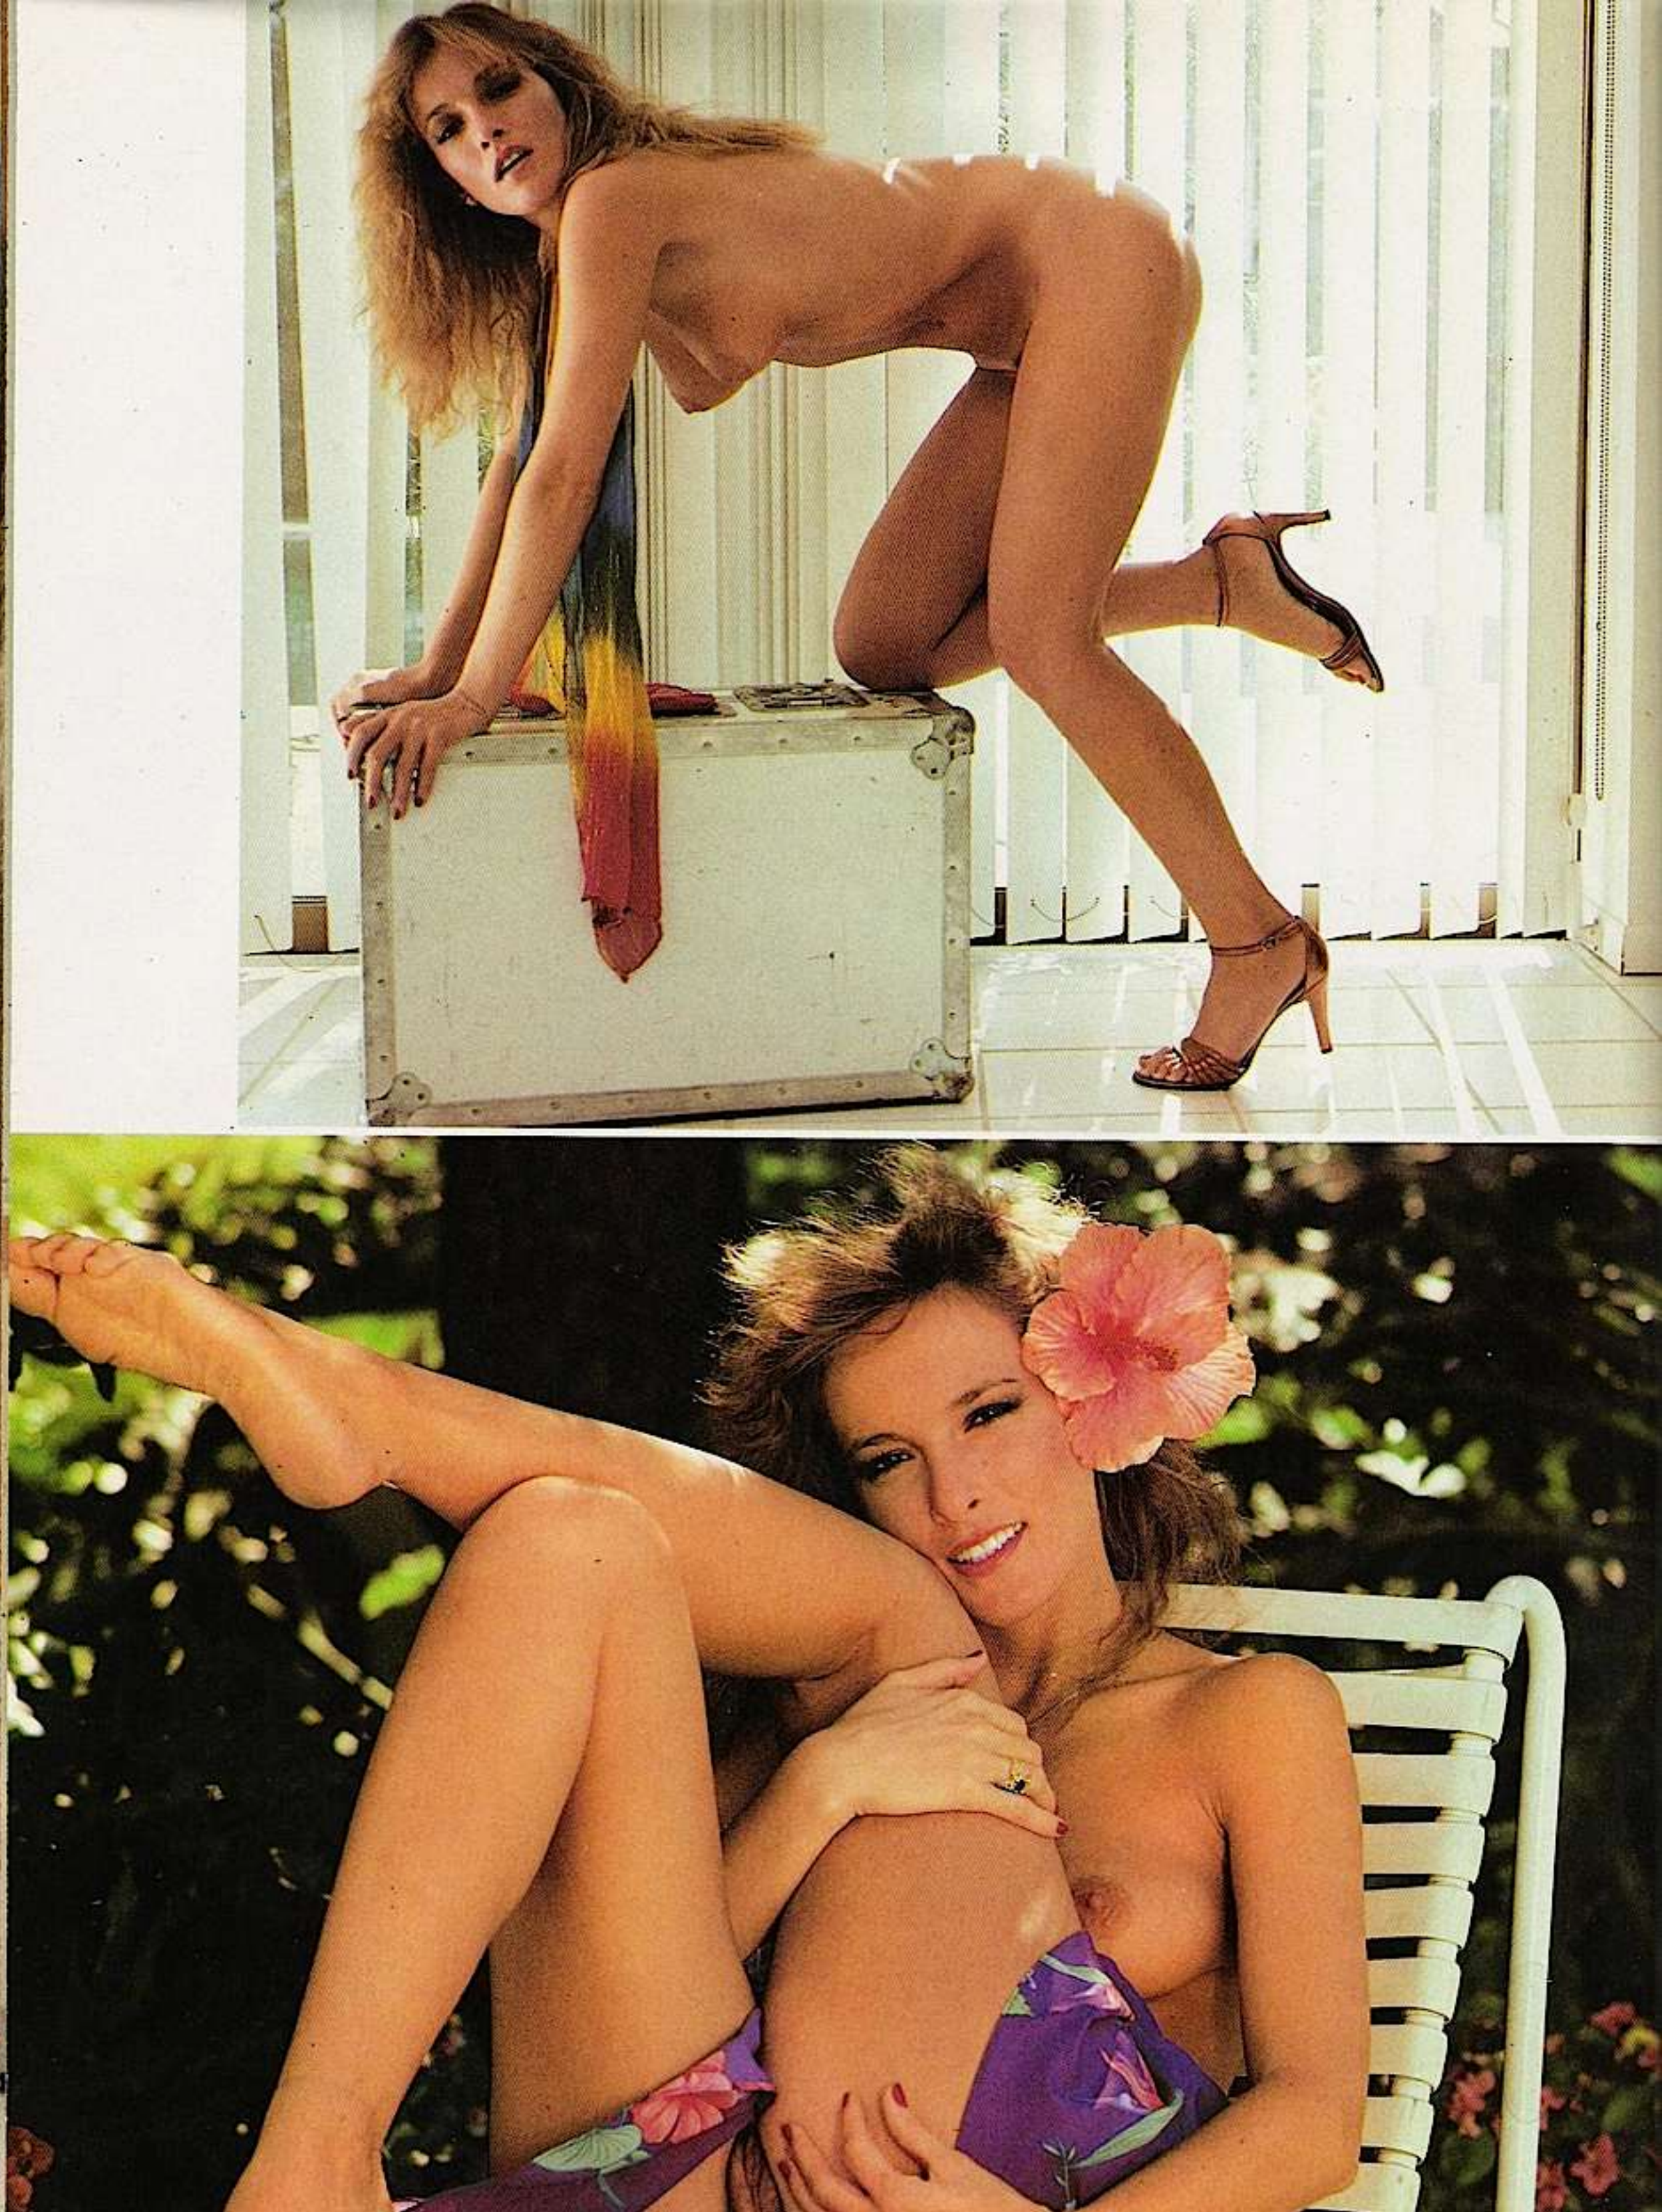
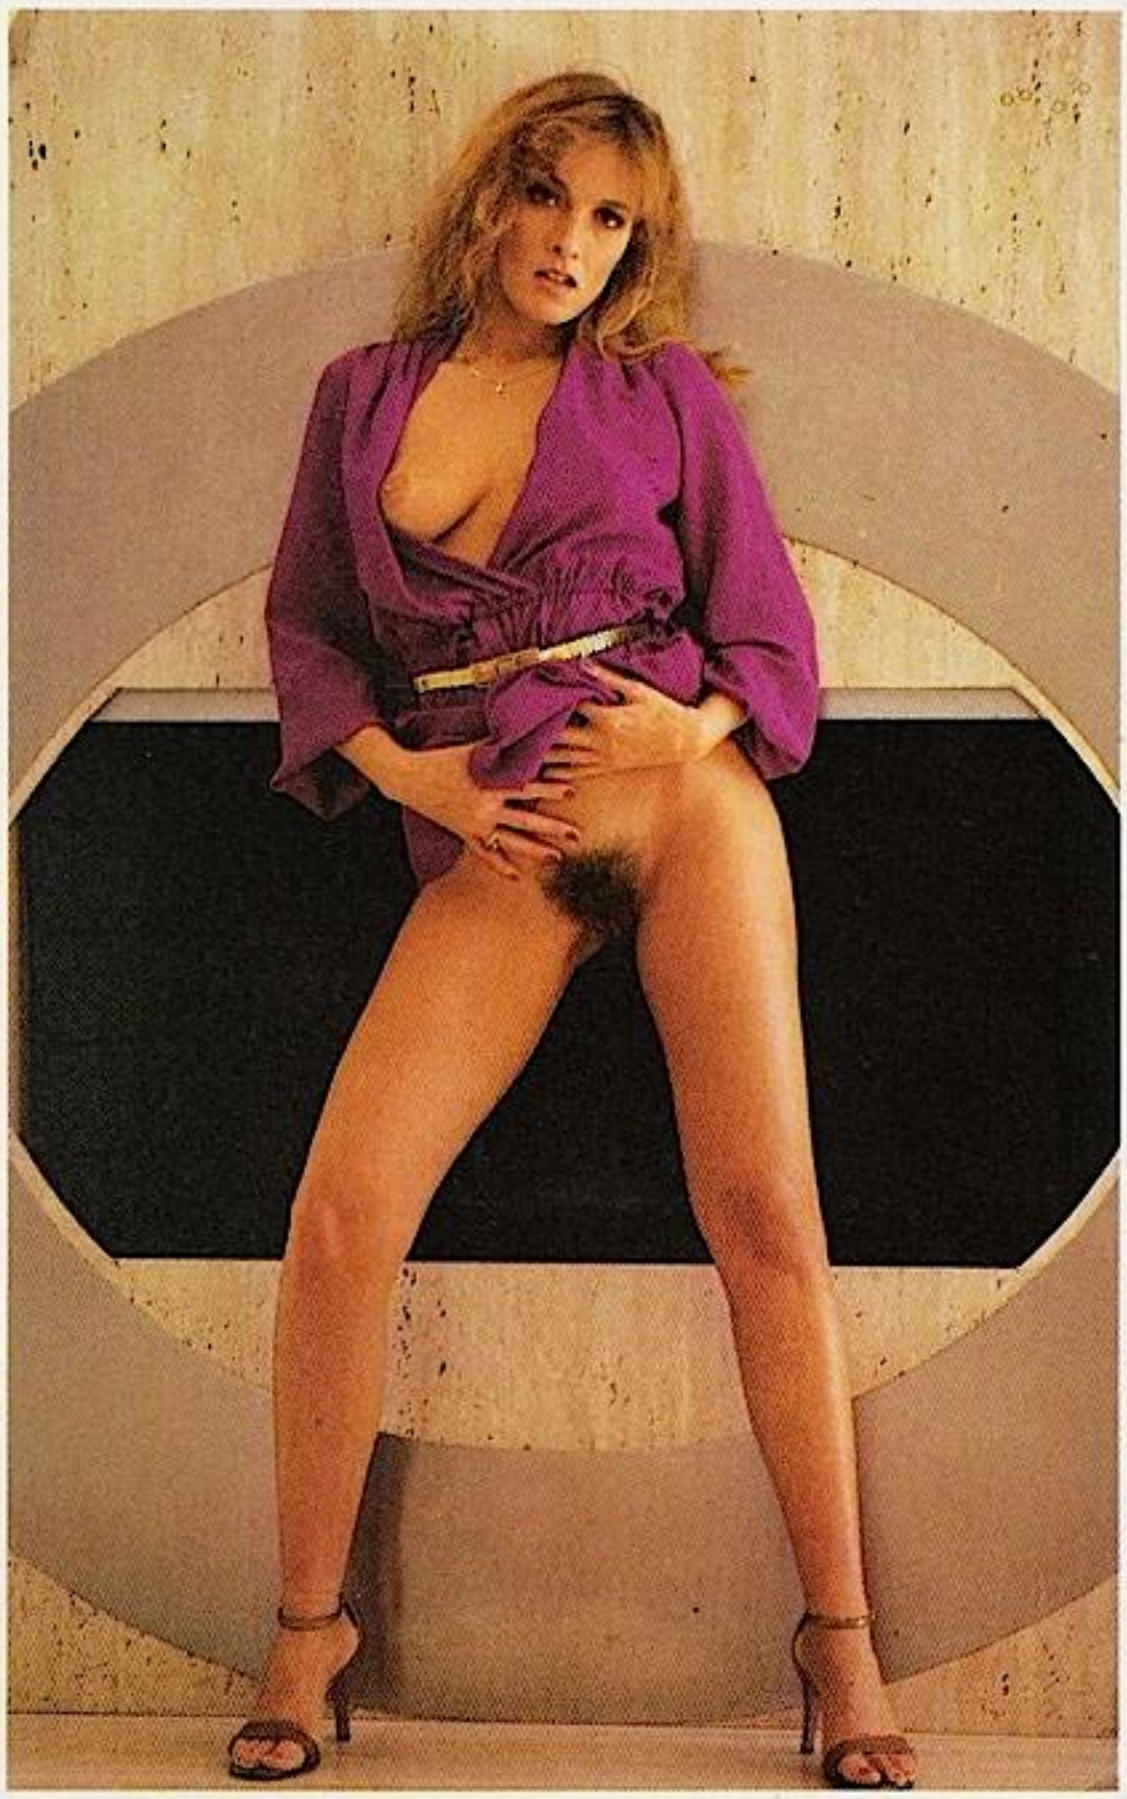
Margaret

Photographs by Jean Pierre Bourgois

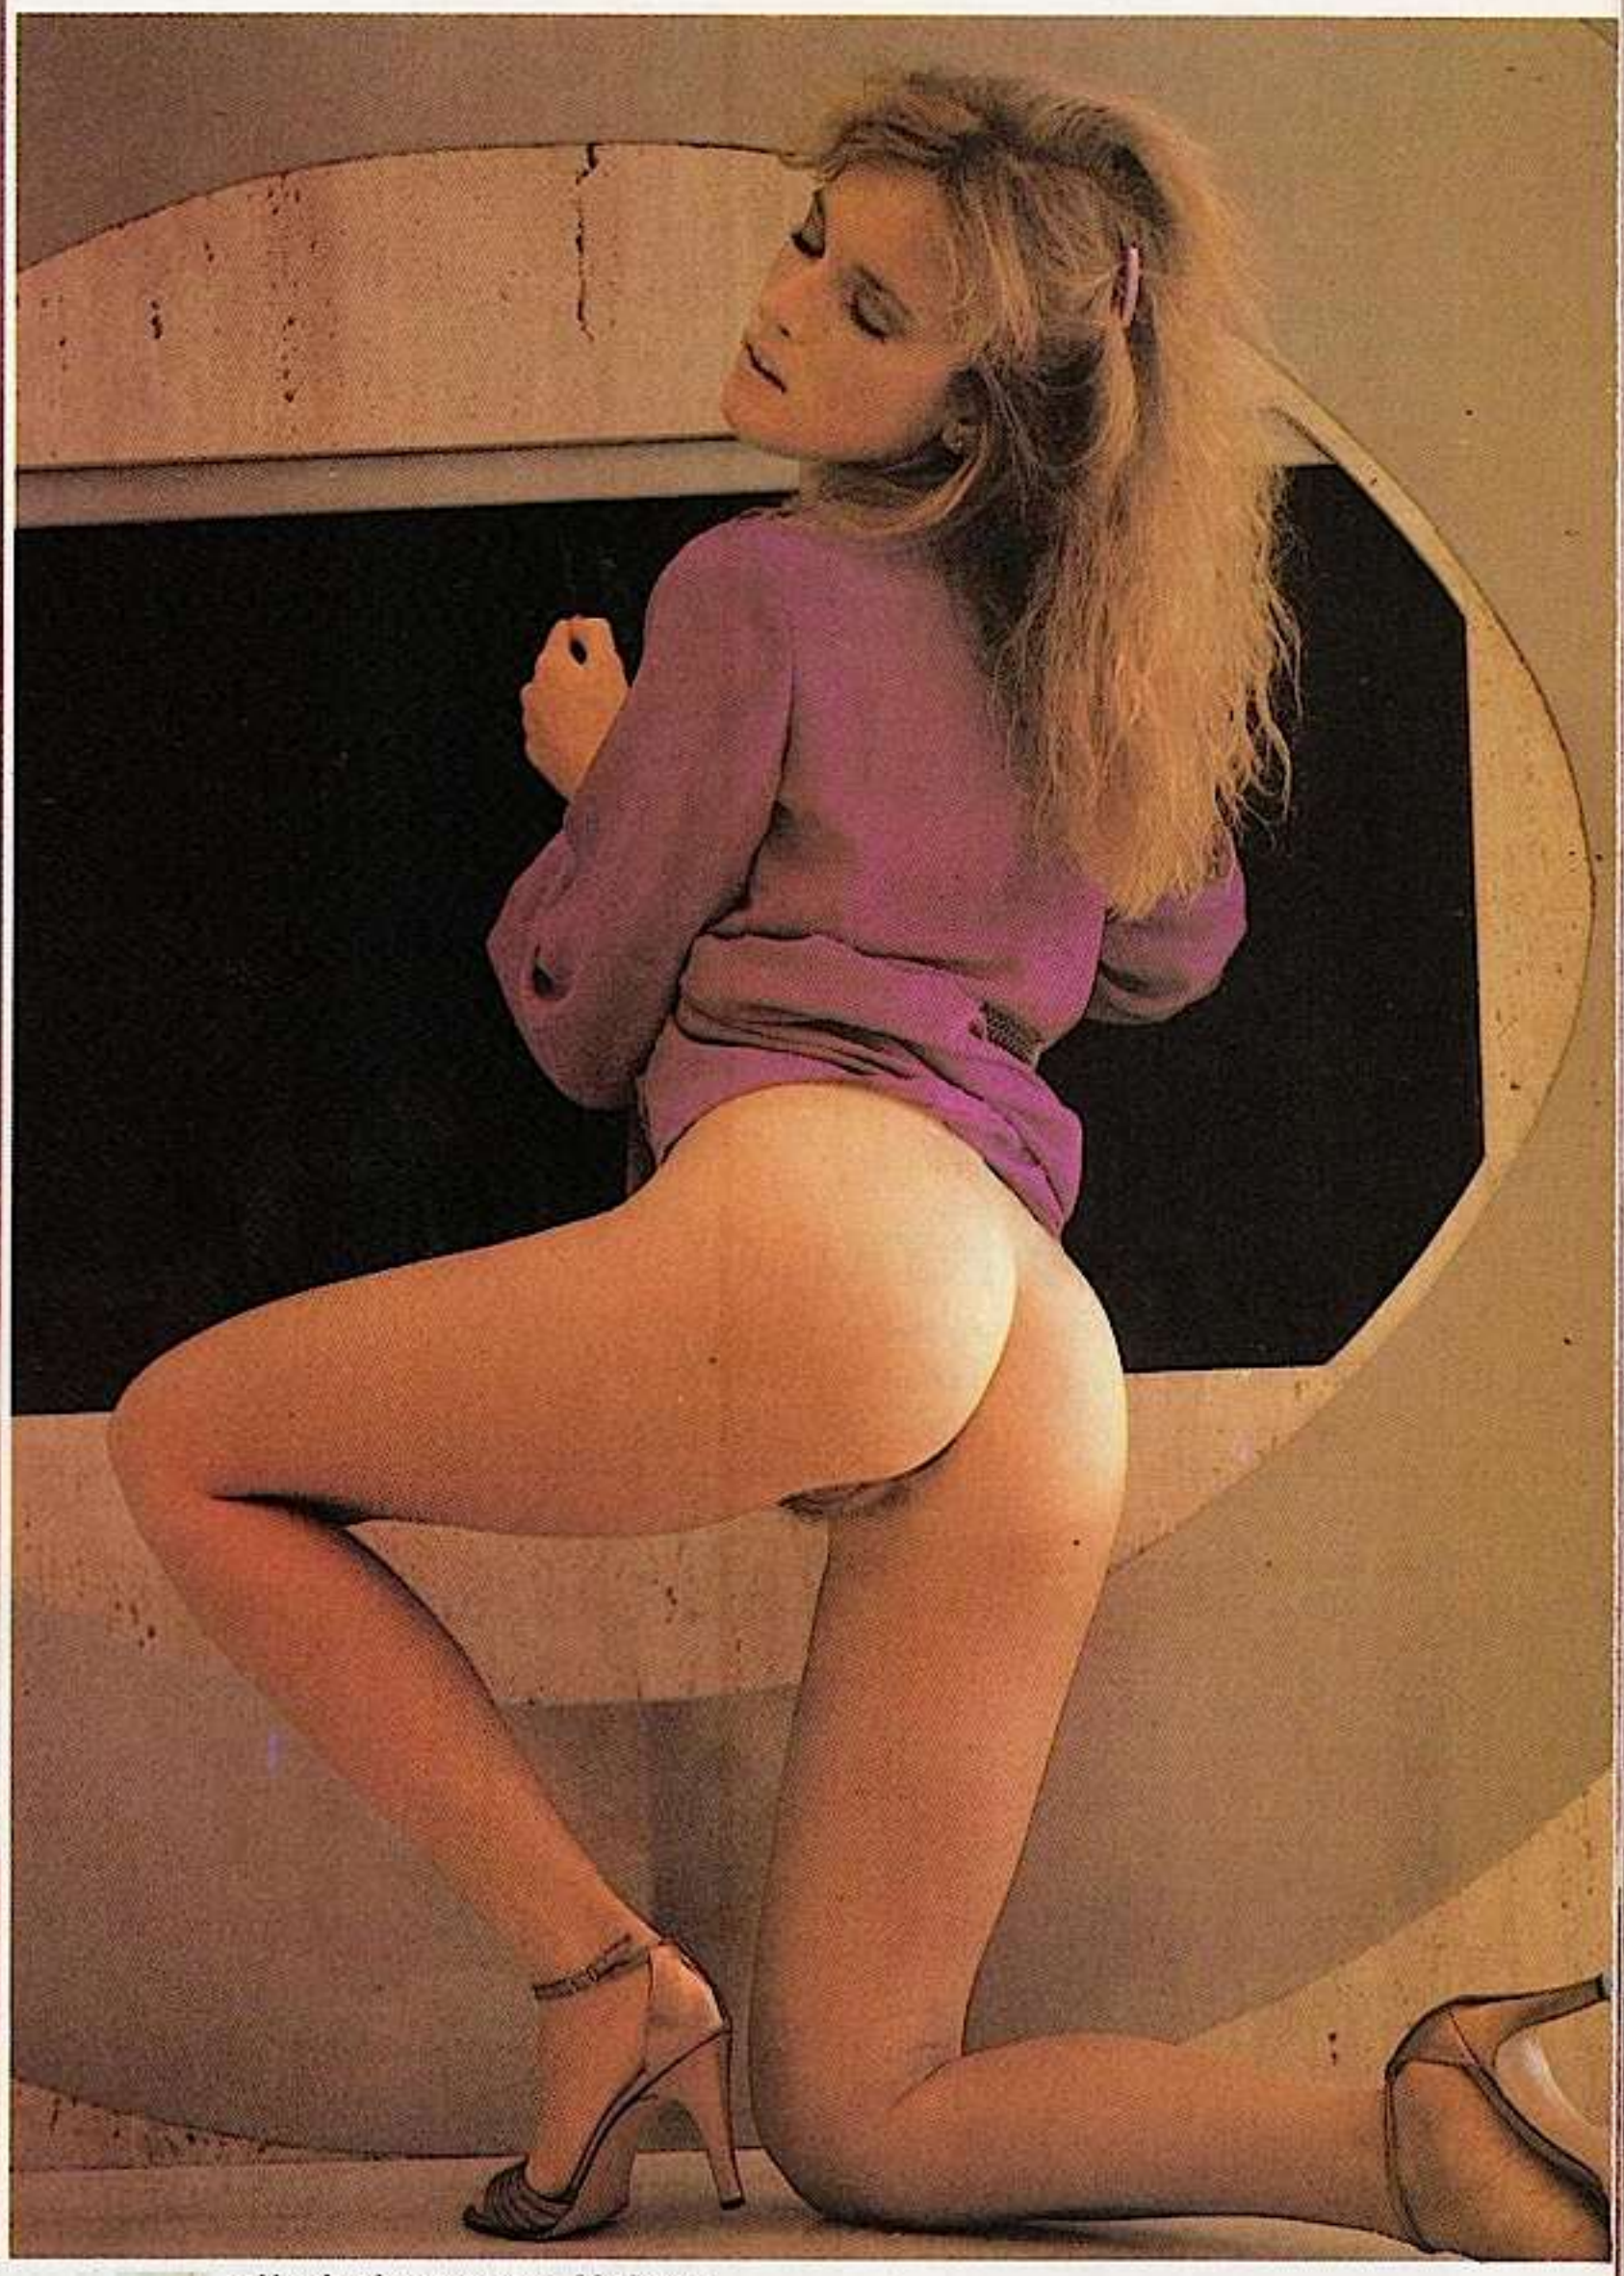
Margaret was one of lensman Jean Pierre Bourgois' more fortunate discoveries – and we don't mean simply because she had such a wonderful physique. No, Jean Pierre had been telephoning a model agency to see if he could discover some new talent for the discerning readership of Club International, *and the voice which asked him how it could assist him so knocked out this usually level headed professional, that on the spot he offered to take a few test shots of the lady. That lady turned out to be the delicious Margaret, and the ensuing photo session produced the exquisite studies you see before you now.*

We asked her if anyone





had ever been so captivated by her vocal capacity before.
'Well, my boyfriend has often said he likes the sound of my voice, and he likes me to talk dirty to him when we're fucking, but I certainly don't think it's anything to do with the quality of my voice. It's just that he's a dirty bastard who likes a dirty fuck.
'Actually, he's just basically a pretty dirty guy – he has this polaroid camera, and he loves me to get into some really explicit positions while he snaps my every erotic part. Then he loves me to wank him while he looks at the pictures – sometimes I think he's a bit weird, because most guys prefer to look at the real thing. His next ambition is to get a video camera – we already have the recorder, and he enjoys watching blue movies with me, especially Electric Blue. *But he wants to get some pictures*



of both of us in action. He loves watching his cock disappearing into me – we often screw in front of full length mirrors.

'He likes to position me on a chair, sitting with my skirt hitched up around my waist, panties off, then he kneels down so that his face is on the same level as my pussy. He thinks nothing of lapping away for an hour or so, and manages to bring me off three or four times.

'I can't say that my voice has had a great deal of effect on my life until your photographer decided I sounded sexy, so I must look sexy.'

Maybe not, Margaret, but we're glad he did. ♣
